Testing: Jest

Tools & Platforms: Git, Bitbucket, Azure, AWS Bedrock, AWS CloudFront, Storybook, Figma

Agile Tools: Jira, Azure DevOps

Other: CI/CD, JSDoc, Unit Testing

WORK EXPERIENCE

Senior Software Engineer — Geotech Infoservices Pvt. Ltd., Kolkata

April 2021 – Present

- Lead development of fan engagement platforms and admin panels using React and Angular
- Architect and implement design systems using Figma, Radix UI, and Storybook
- Develop responsive web applications with TypeScript, ensuring user-friendly and dynamic interfaces
- Integrate AWS Bedrock for AI-powered chatbot functionality and AWS CloudFront for deployment
- Implement comprehensive unit testing strategies using Jest to maintain code quality
- Conduct code reviews and mentor junior developers to maintain high coding standards
- Collaborate with cross-functional teams using Agile methodologies and Jira

Software Engineer — Xelpmoc Design and Tech Ltd., Kolkata

January 2019 – March 2021

- Developed responsive web applications using modern JavaScript frameworks
- Collaborated with design and backend teams to deliver user-centric solutions
- Participated in requirement analysis and agile development processes

KEY PROJECTS

FanNgage Platform (Jan 2025 – Present)

Role: Senior Software Engineer — **Client:** Geotech Infoservices (In-house)

Technologies: React, Radix UI, Storybook, Tailwind CSS, Jest, Redux, Bitbucket, Figma

- Developed sports-agnostic fan engagement platform admin panel benefiting both fans and clubs

- Created comprehensive design system in Figma and implemented using React and Tailwind CSS
- Built reusable component library with Storybook for consistent UI development

Moicca KnowledgeBot AI (May 2024 – Dec 2024)

Role: Senior Software Engineer — **Client:** Webropol (Finland)

Technologies: Angular 18, Jest, AWS Bedrock, AWS CloudFront, CI/CD, Angular Material

- Developed AI-powered knowledgebot platform enabling users to create business chatbots
- Integrated AWS Bedrock for intelligent query handling and seamless user responses
- Implemented dynamic frontend using Angular 18 with comprehensive JSDoc documentation
- Configured CI/CD pipelines for automated testing, building, and deployment processes

MD-Backoffice Admin Portal (Dec 2023 – May 2024)

Role: Software Engineer — **Client:** Many Digital (Denmark)

Technologies: Angular, SCSS, TypeScript, Jest, Azure

- Built white-label mobile app admin portal for comprehensive fan engagement management
- Developed user management, content creation, and analytics modules
- Implemented complex user stories within specified timeframes using Scrum methodology

RFT Admin Panel V1 & V2 (Apr 2021 – Apr 2023)

Role: Software Engineer — **Client:** Geotech Infoservices (In-house)

Technologies: Angular, SCSS, TypeScript, Jest, Jira, Bitbucket

- Single-handedly developed fantasy sports admin panel from scratch for Real Fantasy Teams app
- Designed and implemented all modules for season, contest, and game management
- Collaborated closely with mobile developers and QA teams for requirement gathering

EDUCATION

Bachelor of Technology (B.Tech) — Maulana Abul Kalam Azad University of Technology — 2019

CERTIFICATIONS & TRAINING

- Next.js and React - The Complete Guide – Udemy
- The AI Engineer Course 2026 – Udemy
- Angular Advanced Level Certification – Great Learning
- Project Management Certification – Great Learning
- Time Management Mini Course – Udemy

RECOGNITION & ACHIEVEMENTS

- Received 'Team Worker@2024' award from Geotech Infoservices Pvt Ltd
- Member of Geotech Design Team responsible for design aesthetics and user experience
